4. Start your move-in off right

We share below the different steps after you make your reservation:

1. Signing the lease

You can sign it remotely at the time of booking, prior to your move-in with a scan, or in person on the day of the move-in inspection. You and your landlord will decide when to sign it: for example, if you need proof of address to obtain a visa, you can, of course, sign it remotely once your reservation is confirmed. The lease (or rental agreement) is a written document that lists all the necessary information for a smooth rental process. There are different types of leases. For instance, the contract is not the same depending on whether the property is rented furnished or unfurnished.

2. Move-in inspection

The move-in inspection is a crucial step to avoid any misunderstandings when you move out. It's important to take photos of each room and carefully read the document to ensure everything is in order. This will serve as a reference in case of any alleged damage during the move-out inspection. If anything seems incorrect, don't hesitate to point it out. A detailed inspection report will help you get your full security deposit back at the end of your stay.

3. Signing up for utilities (electricity, internet, etc.)

When you move in, it's important to subscribe to new services such as electricity, gas, water, and internet. Before moving into your new place, get in touch with our partner, Papernest, and benefit from free installation assistance and great deals. Save up to €480 on installation fees. As a bonus, you'll also get discount vouchers at many stores to help you set up your new home!

4. Arriving at your property

You have 24 hours from the move-in date specified on the platform to contact our support team in case of any issues in the property. If necessary and according to our terms and conditions, we may activate our protection against unexpected events to help you find an alternative solution.

5. Prepare your departure

If you wish to leave your accommodation, you must send a notice of departure to the landlord by registered mail with acknowledgment of receipt. According to the law, you will have either 1 or 3 months after receiving this letter, depending on the city, to vacate the property.

Once your notice is sent and the departure period has passed, you can arrange a date for the move-out inspection. This will allow the condition of the property to be checked and any potential damages to be noted. Your security deposit will be returned within a maximum of one month if no damages are found. In case of damages, this period may be extended to 2 months to allow the landlord to make the necessary repairs and adjust the amount of the refund.
