

## USE AND USAGE

Levels (A1), A2, B1

Clare Lavelle

The purpose of this course is to give students the chance to improve their knowledge in English: by revising their grammar, tidying up any misunderstandings or problems, acquiring new vocabulary, working on their reading skills and learning how to take notes while listening and practicing spelling and punctuation.

**Grammar:** A complete grammar review will be made and each revision point will be followed by a discussion and analysis to make sure students understand how English works, with lots of opportunities to speak to reinforce the use and usage of this.

**Reading skills:** Anticipation of content from context, skimming, scanning, dealing with unfamiliar words and making inferences. (Practice for TOEIC)  
Listening comprehension and note-taking will be improve written and listening skills.

**Student-led activity:** An opportunity will be given for students to create an activity or a project to research and explore on their own and possibly present to the group. Various past projects have included: designing a course lesson, creating games, making a video...

**Evaluation:** 50% class work and participation  
25% homework  
25% student-led activity/project
