OUR SCHOOL

The **Escuela Técnica Superior de Ingenieros de Caminos, Canales y Puertos (ETSICCP)** of Universidad Politécnica de Madrid opens its doors to you. Located in Madrid, the ETSICCP continues the heritage of the Spanish Civil Engineering tradition. Our school offers a vibrant atmosphere, allowing free exchange between students, professors and researchers.

We offer Bachelor, Master and Doctorate programs in Civil Engineering, Material Engineering and Structure Engineering with excellency recognized among the best in the world. We are listed as the sixth best civil engineering school in the world according to the Shanghai ranking. All our titles also have international accreditations, such as ABET and EUR-RACE.

Our school has two different sites in two of the most iconic places of the city: Ciudad Universitaria Building and Retiro Building. We have over 100,000 m² of facilities including world class laboratories, sports facilities such as football, tennis, paddle tennis, basketball courts, as well as unique science museums, like the Torres Quevedo Exhibition. Students can complement their academic life with the activities proposed by the numerous student associations in our School, like theatre, music club, etc. We are delighted to welcome you and it will be an honor to accompany you during your studies.

USEFUL INFORMATION

Caminos UPM website

On the faculty's website, you can find a segment that summarizes the most important information for mobility students who are studying part of their studies at ETSICCP.

Semester dates

The calendar for the 2026-2027 academic year was not yet defined when this document was drafted. However, it typically remains very similar every year. Please refer to the 2025-2026 calendar for guidance.

Spanish language classes

UPM offers two Spanish courses per semester: an Intensive one at the beginning of the semester, and the Spanish applied to Science and Technology course during the Semester. Check [UPM-Language Centre](#)
